

MARINE RESERVES OF FISHING INTEREST AND THE REGENERATION OF THE FISHING RESOURCES

SECRETARÍA GENERAL DE PESCA MARÍTIMA ~ SGPM & COMUNIDADES AUTÓNOMAS

Main Achievements of Marine Reserves as fisheries management tools from the General Secretariat of Sea (SGM Secretaría General del Mar)

Steps in the creation of the marine reserve

Before:

- Support of professional fishing sector
- Positive scientific report
- Previous technical assessment
- Socio-economic Impact Analysis
- Elaboration of Ex Ante Proposal: delimitation, internal zoning and uses
- Research campaigns
- Legal report
- Writing of the definitive document and its publication

After:

- Regulation by Ministerial Order
- Use of Integral Reserve/s: prohibited
- Use of rest of Reserve:
 - Professional fishing through census
 - Recreational fishing and diving by authorisation
- Surveillance resources to: inform, deter, help and report
- Other resources: posters, signs, diving buoys, DVDs, leaflets, etc.
